

When your employees need to connect, you'll be ready.

Connect, share and collaborate easily with VoIP.

Fact sheet

Today, organizations run at light speed on a 24/7 cycle.

Keeping ahead of the competition means staying productive in more places around the clock. That's why you need a network that works as hard as you do. Voice over IP (VoIP) makes that possible. Our cloud-based communications solutions help your teams stay ready to collaborate and make critical decisions on the fly—virtually anywhere your agencies takes them.

VoIP Base Package includes Private Network connection, SBC, IP trunks, router, switch, Managed Services, 50+ features and IP Phone.

Full VoIP Service add-on UC features include base package above:

- VoIP Instant Meetings
- Desktop Softphone
- Mobile Client
- Voice Mail

Don't choose just any VoIP provider.

Turn to a leader. With years of expertise and competitive service level agreements (SLAs), you can be confident your mission-critical services are there when you need them. Consider our track record:

- More than 15 years of experience designing, implementing and supporting business-grade VoIP solutions
- Recognized by Frost & Sullivan with the 2018 North American SIP Trunking Services Market Leadership Award²
- More than 100,000 VoIP sites, 6,500 customers and 7.5+ million telephone numbers

Verizon VoIP solutions are now available on CALNET NextGen for California agencies and organizations.³
