Network Changes and Trunk Rearrangements:

The Rochelle Park NJ CS2K switch will be the recipient office of traffic migrated from the Newfoundland NJ EWSD switch. Traffic bound for the codes listed in Table B will be delivered via the New Brunswick 04T Tandem (NBWKNJNB04T).

After all traffic is migrated off of the Newfoundland NJ EWSD switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Rochelle Park NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Newfoundland NJ EWSD switch will be required to reposition the codes to the Rochelle Park NJ CS2K switch.

All ASRs for the Rochelle Park NJ CS2K switch must be received no later than July 21, 2025, to provide sufficient time to migrate the traffic described above. All traffic must be moved by October 1, 2025.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Newfoundland NJ EWSD switch.
