## Subject : Verizon Partner Solutions Industry Letter: Buffalo Hertel NY DMS100 Switch Retirement

### PLEASE NOTE:

- All references to the Buffalo Hertel NY DMS100 switch are associated with CLLI code BFLONYHEDS0 and will not be repeated throughout this letter.
- All references to the Buffalo NY Packet End Office (PEO) switch are associated with CLLI code BFLONYFRPS0 and will not be repeated throughout this letter.

As set out in the Verizon New York Inc. Public Notice of Network Change Under Rule 51.329(a), dated March 24, 2025, on or after October 1, 2025, the Buffalo Hertel NY DMS100 switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

**General Information:** The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 716 currently residing in the Buffalo Hertel NY DMS100 switch (see list in Table B below) will be moved to the Buffalo NY PEO switch (see details in Table A below).

The native NPA NXXs belonging to the Buffalo Hertel NY DMS100 switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Buffalo NY PEO switch. This will occur on or after October 1, 2025.

**Table A**

|                  | From                                   | To                                      |

| 716 | 879 | EOC  | BFLONYHEDS0 |
| 716 | 982 | EOC  | BFLONYHEDS0 |

### Network Changes and Trunk Rearrangements:

The Buffalo NY PEO switch will be the recipient office of traffic migrated from the Buffalo Hertel NY DMS100 switch. Traffic bound for the codes listed in Table B will be delivered via the Buffalo NY Tandem (BFLONYFR50T intra-lata SHA/BFLONYFR50T inter-lata FG Access SHA).

After all traffic is migrated off of the Buffalo Hertel NY DMS100 switch, this switch will be retired and removed from the

network.

CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Buffalo NY PEO switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunks (DEOT) with access connectivity in the Buffalo Hertel NY DMS100 switch will be required to reposition the codes to the Buffalo NY PEO switch. All ASRs for the Buffalo NY PEO switch must be received no later than August 15, 2025, to provide sufficient time to migrate the traffic described above. All traffic must be moved by October 1, 2025.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Buffalo Hertel NY DMS100 switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
