Network Changes and Trunk Rearrangements:

The Fort Washington PA CS2K switch will be the recipient office of traffic migrated from the King of Prussia PA 5ESS switch. Traffic bound for the codes listed in Table B will be delivered via the Market 92T Tandem (PHLAPAMK92T).

After all traffic is migrated off the King of Prussia PA 5ESS switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers, and paging carriers will need to secure new trunk groups built to the Fort Washington PA CS2K switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the King of Prussia PA 5ESS switch will be required to reposition the codes to the Fort Washington PA CS2K switch.

All ASRs for the Fort Washington PA CS2K switch must be received no later than March 28, 2026, to provide sufficient time to migrate the traffic described above. All traffic must be moved by April 16, 2026.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the King of Prussia PA 5ESS switch.
