Subject : Verizon Partner Solutions Industry Letter: Homestead PA EWSD Switch Retirement

PLEASE NOTE:

- All references to the Homestead PA EWSD switch are associated with CLLI code HMSTPAHODS0 and will not be repeated throughout this letter.
- All references to the Oakland PA CS2K switch are associated with CLLI code PITBPAOKPS0 and will not be repeated throughout this letter.

As set out in the Verizon Pennsylvania LLC Short Term Public Notice Under Rule 51.333(a), dated March 3, 2026, on or after April 30, 2026, the Homestead PA EWSD switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 412 currently residing in the Homestead PA EWSD switch (see list in Table B below) will be moved to the Oakland PA CS2K switch (see details in Table A below).

The four (4) native NPA NXXs belonging to the Homestead PA EWSD switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Oakland PA CS2K switch. This will occur on or after April 30, 2026.

Network Changes and Trunk Rearrangements:

The Oakland PA CS2K switch will be the recipient office of traffic migrated from the Homestead PA EWSD switch. Traffic bound for the codes listed in Table B will be delivered via the Oakland GT0 Tandem (PITBPAOKGT0).

After all traffic is migrated off of the Homestead PA EWSD switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Oakland PA CS2K switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Homestead PA EWSD switch will be required to reposition the codes to the Oakland PA CS2K switch.

All ASRs for the Oakland PA CS2K switch must be received no later than March 25, 2026, to provide sufficient time to migrate the traffic described above. All traffic must be moved by April 30, 2026.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Homestead PA EWSD switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
