## Subject : Verizon Partner Solutions Industry Letter: Petersburg VA 5ESS Switch Retirement

### PLEASE NOTE:

All references to the Petersburg VA 5ESS switch are associated with CLLI code BTHIVABTDS0 and will not be repeated throughout this letter.

All references to the Grace Street VA CS2K switch are associated with CLLI code RCMDVAGRPS1 and will not be repeated throughout this letter.

As set out in the Verizon Virginia LLC Short Term Public Notice Under Rule 51.333(a), dated June 3, 2026, on or after July 29, 2026, the Petersburg VA 5ESS switch will be retired and removed from the Verizon network.

**General Information:** The Petersburg VA 5ESS switch will be replaced by the Grace Street VA CS2K switch. See details in Table A.

The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 804 currently residing in the Petersburg VA 5ESS switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) on or after July 29, 2026. See details in Table B.

**Table A**

Description	From	To
Office Name	Petersburg	Grace Street
CLLI Code	PTBGVAPBDS0	RCMDVAGRPS1
Switch Type	5ESS	CS2K
Location	101 N. Union Street Petersburg, VA 23803	703 E. Grace Street Richmond, VA 23219
Point Code	246 195 002	246 195 041

OCN	9213	9213
Rate Center LATA	248	248
Rate Center	Petersburg	Grace Street
State	VA	VA

**Table B**

NPA	NXX	TYPE	RATECENTER
804	705	EOC	PETERSBURG
804	722	EOC	PETERSBURG
804	732	EOC	PETERSBURG
804	733	EOC	PETERSBURG
804	765	EOC	PETERSBURG
804	861	EOC	PETERSBURG
804	862	EOC	PETERSBURG
804	863	EOC	PETERSBURG
804	957	EOC	PETERSBURG

### Network Changes and Trunk Rearrangements:

The Grace Street VA CS2K switch will be the recipient office of traffic migrated from the Petersburg VA 5ESS switch. Traffic to be migrated to the Grace Street VA CS2K switch includes all of the traffic currently handled by the Petersburg VA 5ESS switch including, but not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), and Intra-LATA and local traffic (including CLEC, IEC, wireless and Verizon sector end office switched traffic). After all traffic is migrated off of the Petersburg VA 5ESS switch, this switch will be retired and removed from the network.

All CLECs, IXCs, IECs, ILEC, wireless carriers and paging carriers will need to provision new trunk groups to support direct end office trunking to the Grace Street VA CS2K switch. Carriers with existing trunk groups to this switch will need to augment if necessary.

All ASRs for the Grace Street VA CS2K switch must be received no later than July 6, 2026, to provide sufficient time to migrate the traffic described above. All traffic must be moved on or after July 29, 2026, based on LERG change notification. Upon decommissioning of the Petersburg VA 5ESS switch, the nine (9) native codes (NPA NXXs) that currently reside in the

Petersburg VA 5ESS switch will reflect the Grace Street VA CS2K switch in the LERG.

Submissions of disconnect ASRs to Verizon for the Petersburg VA 5ESS switch are required immediately after the re-homing of traffic is complete.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Petersburg VA 5ESS switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
