Subject : Verizon Partner Solutions Industry Letter: ALLENTOWN NJ EWSD Switch Retirement

PLEASE NOTE:

All references to the Allentown NJ EWSD switch are associated with CLLI code ALTWNJALDS5 and will not be repeated throughout this letter.

All references to the Camden NJ CS2K switch are associated with CLLI code CMDNNJCEPS and will not be repeated throughout this letter.

As set out in the Verizon New Jersey Inc. Short Term Public Notice Under Rule 51.333(a), dated July 16, 2026, on or after August 28, 2026, the Allentown NJ EWSD switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 609 currently residing in the Allentown NJ EWSD switch (see list in Table B below) will be moved to the Camden NJ CS2K switch (see details in Table A below). The two (2) native NPA NXXs belonging to the Allentown NJ EWSD switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Camden NJ CS2K switch. This will occur on or after August 28, 2026.

Table A

	From	To
Entity	Allentown ALDS5	Camden CEPS0
Cli	ALTWNJALDS5	CMDNNJCEPS0
Product	EWSD	CS2K
Location	5 Waker Avenue Allentown, NJ 08501	12 N. 7th Street Camden, NJ 08102 246 103 111
Point Code	246 102 031	NXX Type
EOC	EOC	OCN

222	224	Rate Center

State NJ NJ

Table B

NPA	NXX	TYPE	RATECENTER
609	208	EOC	ALLENTOWN
609	259	EOC	ALLENTOWN

Network Changes and Trunk Rearrangements:

The Camden NJ CS2K switch will be the recipient office of traffic migrated from the Allentown NJ EWSD switch. Traffic bound for the codes listed in Table B will be delivered via the Camden 05T Tandem (CMDNNJCE05T).

After all traffic is migrated off of the Allentown NJ EWSD switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Camden NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Allentown NJ EWSD switch will be required to reposition the codes to the Camden NJ CS2K switch.

All ASRs for the Camden NJ CS2K switch must be received no later than August 13, 2026, to provide sufficient time to migrate the traffic described above. All traffic must be moved by August 28, 2026.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Allentown NJ EWSD switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
