

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

January 14, 2025

Carrier: Verizon Delaware LLC, 901 N. Tatnall Street, Wilmington, DE 19801

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
410-375-9777

Michael Childs
Associate Director
Verizon Network Engineering
5055 North Point Pkwy.
Alpharetta, GA 30022
469-497-4466

Implementation Date: On or after July 2, 2025

Planned Network Change(s) will occur at the following locations in Delaware:

Verizon Central Office	Address	CLLI
Marshallton DE DMS100 Switch	1625 Newport Gap Pike Wilmington, DE 19808	MSTNDEMADS0
Wilmington DE CS2K Switch	901 N. Tatnall Street Wilmington, DE 19801	WLMGDEWLPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Marshallton DE DMS100 switch are associated with CLLI code MSTNDEMADS0 and will not be repeated throughout this notice.
- All references to the Wilmington DE CS2K switch are associated with CLLI code WLMGDEWLPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Marshallton DE DMS100 switch, located at 1625 Newport Gap Pike, Wilmington, DE 19808, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Wilmington DE CS2K switch, located at 901 N. Tatnall Street, Wilmington, DE 19801. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Wilmington DE CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Marshallton DE DMS100 switch will be required to reposition the codes to the Wilmington DE CS2K switch.

All ASRs for the Wilmington DE CS2K switch must be received no later than June 2, 2025, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Marshallton DE DMS100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Marshallton DE DMS100 switch (**on or after July 2, 2025**). This will serve to guide interconnect re-routes of traffic for the twelve (12) native codes currently served by the Marshallton DE DMS100 switch to reflect the Wilmington DE CS2K switch as the new home switch.
