

6929 N. Lakewood Ave  
Tulsa, OK 74117

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)**

March 24, 2025

**Carrier:** Verizon New Jersey Inc., One Verizon Way, Basking Ridge, NJ 07920

**Contact:** For additional information on these planned network changes, please contact:

Lisa Thompson  
Global Data Network Engineering  
Verizon Wireline Network Operations  
13100 Columbia Pike, Floor 5 Room 505  
Silver Spring, MD 20904  
(410) 375-9777

Michael Childs  
Associate Director  
Verizon Network Engineering  
5055 North Point Pkwy.  
Alpharetta, GA 30022  
(469) 497-4466

**Implementation Date:** On or after October 1, 2025

**Planned Network Change(s) will occur at the following locations in New Jersey:**

Verizon Central Office	Address	CLLI
Moorestown NJ 5ESS Switch	105 E. Main Street Moorestown, NJ 08057	<b>MSTWNJMODS6</b>
Camden NJ CS2K Switch	12 N. 7th Street Camden, NJ 08102	<b>CMDNNJCEPS0</b>

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Moorestown NJ 5ESS switch are associated with CLI code MSTWNJMODS6 and will not be repeated throughout this notice.
- All references to the Camden NJ CS2K switch are associated with CLI code CMDNNJCEPS0 and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Moorestown NJ 5ESS switch, located at 105 E. Main Street, Moorestown, NJ 08057, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Camden NJ CS2K switch, located at 12 N. 7th Street, Camden, NJ 08104. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Camden NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Moorestown NJ 5ESS switch will be required to reposition the codes to the Camden NJ CS2K switch.

All ASRs for the Camden NJ CS2K switch must be received no later than July 1, 2025, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Moorestown NJ 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Moorestown NJ 5ESS switch (**on or after October 1, 2025**). This will serve to guide interconnect re-routes of traffic for the nineteen (19) native codes currently served by the Moorestown NJ 5ESS switch to reflect the Camden NJ CS2K switch as the new home switch.
