PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

This Notice further amends Verizon New Jersey’s previously-filed Public Notice of September 1, 2022, seeking an implementation date of on or after March 20, 2023 date; and amended Public Notice of November 7, 2023, seeking an implementation date of on or after August 1, 2024. With this further amendment, Verizon New Jersey extends the implementation date to on or after December 1, 2026.

March 24, 2025

Carrier: Verizon New Jersey Inc., One Verizon Way, Basking Ridge, NJ 07920

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson

Michael Childs
Associate Director
Verizon Network Engineering
5055 North Point Pkwy.
Alpharetta, GA 30022
(469) 497-4466

Implementation Date: On or after December 1, 2026

Planned Network Change(s) will occur at the following locations in New Jersey:

Verizon Central Office	Address	CLLI
Rochelle Park NJ CS2K Switch	65 West Passaic Street Rochelle Park, NJ 07662	RCPKNJ01PS0
New Brunswick NJ C20 Switch	18 Paterson Street New Brunswick, NJ 08901	NBWKNJNBPS2

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>.

PLEASE NOTE:

- All references to the Rochelle Park NJ CS2K switch are associated with CLI code RCPKNJ01PS0 and will not be repeated throughout this notice.
- All references to the New Brunswick NJ C20 switch are associated with CLI code NBWKNJNBPS2 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Rochelle Park NJ CS2K switch, located at 65 West Passaic Street, Rochelle Park, NJ 07662, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon New Brunswick NJ C20 switch, located at 18 Paterson Street, New Brunswick, NJ 08901. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers and paging carriers will need to secure new trunk groups built to the New Brunswick NJ C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Rochelle Park NJ CS2K switch will be required to reposition the codes to the New Brunswick NJ C20 switch.

All ASRs for the New Brunswick NJ C20 switch must be received no later than October 1, 2026, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Rochelle Park NJ CS2K switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Rochelle Park NJ CS2K switch (**on or after December 1, 2026**). This will serve to guide interconnect re-routes of traffic for the native codes on the eleven (11) end offices currently served by the Rochelle Park NJ CS2K switch to reflect the New Brunswick NJ C20 switch as the new home switch.
