

6929 N. WEST OSBORNVILLE Avenue
Tulsa, OK 74117

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

March 3, 2026

Carrier: Verizon New Jersey Inc., One Verizon Way, Basking Ridge, NJ 07920

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
410-375-9777

Michael Childs
Associate Director
Verizon Network Engineering
5055 North Point Pkwy.
Alpharetta, GA 30022
469-497-4466

Implementation Date: On or after April 30, 2026

Planned Network Change(s) will occur at the following locations in New Jersey:

Verizon Central Office	Address	CLLI
West Osbornville NJ DMS100 Switch	189 Drum Point Road Brick, NJ 08723	WOVLNJWODS1
New Brunswick NJ C20 Switch	18 Patterson Street New Brunswick, NJ 08901	NBWKNJNBPS2

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the West Osbornville NJ DMS100 switch are associated with CLI code WOVLNJWODS1 and will not be repeated throughout this notice.
- All references to the New Brunswick NJ C20 switch are associated with CLI code NBWKNJNBPS2 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon West Osbornville NJ DMS100 switch, located at 189 Drum Point Road, Brick, NJ 08723, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon New Brunswick NJ C20 switch, located at 18 Patterson Street, New Brunswick, NJ 08901. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the New Brunswick NJ C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the West Osbornville NJ DMS100 switch will be required to reposition the codes to the New Brunswick NJ C20 switch.

All ASRs for the New Brunswick NJ C20 switch must be received no later than March 23, 2026, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the West Osbornville NJ DMS100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the West Osbornville NJ DMS100 switch (**on or after April 30, 2026**). This will serve to guide interconnect re-routes of traffic for the seven (7) native codes currently served by the West Osbornville NJ DMS100 switch to reflect the New Brunswick NJ C20 switch as the new home switch.
