

Verizon Partner Solutions Exchange

May 2026 Release Notice

The upcoming release upgrade for the Verizon Partner Solutions Exchange platform is committed for Sunday May 17, 2026, and will feature the following.

Fiber To The Internet (FTTI) - Request New Sub-Location

The "Add Address" button on the Exchange Service Availability Screen will be replaced with a "Request New Sub-Loc" button and this will provide the ability to request a new sub-location to be added when a building supports Fiber.

Optical Wave Service - Optical Extension (OE) - New Interface

When one or both ends of the circuit is an Optical Extension (OE) the new interface will be 1310 NM Single Mode Fiber (SMF) when the following configuration options are selected:

- Speed: 10Gbps
- Protocol: LAN PHY or WAN PHY
- Type of Facility: LEC Entrance

System Downtime - Friday, May 15 at 8pm to Sunday, May 17 at 12am (Eastern Time)

During this release upgrade, the system will be unavailable to process quotes, orders, tickets and other transactions.

If you have any questions about this notification, please open a [Care Request](#) within the Verizon Partner Solutions Exchange portal.

The [Release Notes](#) and Job Aids for this system release will be available in the Verizon Partner Solutions Exchange [Learning Library](#).
