Verizon Partner Solutions Exchange

November 2025 Release

The upcoming release upgrade for the Verizon Partner Solutions Exchange portal is **targeted for Sunday, November 16, 2025**, and will feature the following enhancements:

Products

Wavelength Solutions
- Network design enhancements for Wavelength Service Metro/National

Transparent LAN Service (TLS)
- Add 2 yr term (Change Order)

Toll Free Voice Services
- Enhancements to response codes to improve toll-free number provisioning

Capabilities

Quoting
- Enable parsed address entry option for Wavelength Service Metro/National, Switched E-Line and Dedicated E-Line

Ordering

- Enable only VLAN changes (if applicable) in the configuration section of **Transparent LAN Service (TLS)** EVC circuits on change service requests
- Disable the Due Date Change option on **Transparent LAN Service (TLS), Optical Wave Service (OWS)** orders that are in error status, except in the case of due date related errors.
- For all products, allow for the disconnection of a circuit if it is not found

Milestones
Enhance the experience of order status milestones by displaying the following details
- Add LAN IP Details (Internet Orders Only)
- Enhanced Demarc information

Delivery Worklist
New fields have been added to facilitate the use of the Delivery Worklist
- Search by "Order Initiator"
- Sort by "All Owners"
