

Anytime. Any way.

Give your constituents an exceptional customer experience by moving your contact center to Verizon.

Verizon Virtual Contact Center (VCC)

Focus on the constituent experience without the headaches of managing platform performance, capacity and network reach by using Verizon's reliable cloud-based contact center.

Reliable

Geographic redundancy and in-site failover

Single source solution

Scale and grow capacity effortlessly with the peace of mind that Verizon is maintaining the end-to-end solution.

Smart routing

Turn your contact center into an experience center by routing interactions based on analytics and proactive customer outreach based on journey predictions.

Keep the customer first

Route interactions to agents with the skills to give each customer the best answer.

99.99% VCC components uptime SLA

Global

Support for agents and interactions around the world, including U.S., EMEA and APAC.

Uptime

Enjoy the benefits of a high availability and proactive management to help mitigate the risk of impacting events.

Secure

Drive data protection both in flight and at rest with critical security controls at the network, database and procedural layers.

Omnichannel

Support for voice, email, chat, SMS, mobile, web and social media.

Verizon Virtual Contact Center is now available from SUNCOM for Florida agencies and organizations.
