

A better way to get the latest technology.

Verizon Edge Solutions Customer Premises Equipment Monthly Recurring Plan

You can procure, deploy, maintain and refresh your network edge equipment and technology for a flat monthly fee as a part of a solution tailored to meet your business goals.

It's hard to keep your technology up to date. And if you have aging equipment, it's hard to take full advantage of advances in communications technology and applications. Unfortunately, updating equipment can be expensive, with high upfront capital costs. Supporting and managing hardware and software can burden your IT team and increase operating expenses.

Our Monthly Recurring Plan (MRP) combines our expertise and resources to help you select, deploy, maintain and refresh equipment for a flat monthly fee. With MRP, you can reduce or eliminate upfront costs. Because we operate around the globe, you can simplify how you source and deploy equipment as you expand.

The value of our monthly recurring plan.

You need your equipment to deliver critical communications between your employees and customers. But to improve your business results, you also need efficient, cost-effective ways to update and manage that equipment. With this plan, you can efficiently connect locations and mobile workers around the world and help boost revenue with new services. It helps you deliver essential applications, and most importantly, grow and serve your customers.

This plan leverages our capabilities as a global technology and managed services provider to give you:

- Advanced equipment for a flat monthly fee without large upfront capital expense (CAPEX)
- Expert sourcing, configuration and installation¹ without upfront deployment expenses
- Proven, reliable and flexible service options
- More time for your in-house IT personnel to focus on strategic activities
- Options when you need them

Delivering integrated global solutions.

With our global IP network, we deliver comprehensive business solutions and improve the performance of applications around the world. With this reach and capability, we can provide you with a broad array of equipment to help streamline your business processes, improve productivity and increase agility.

The consistent implementation and management that comes with our solution makes it easy for you to benefit from the rest of our global portfolio. We can plan, build, deploy and manage an integrated suite of solutions around the globe to help you accelerate your business. This plan simplifies your role in technology implementation and management because you:

- Do not take title to the equipment at any time
- Do not have to deal with the logistics of getting equipment to required destinations
- Only have to deal with one point of contact: Verizon

Technology refresh challenges	CPE purchase	CPE MRP
Upfront capital, deployment and maintenance expenses	Yes	Few or none
Additional in-house expertise required to source and implement CPE	Yes	No
Need to take title to the CPE and be responsible for logistics	Yes	No
Internal experts required to manage CPE maintenance	Yes	No

¹. Not applicable when the CPE is a plug-and-play device that requires only a simple installation by the customer

Use Edge Solutions MRP as a building block for better results.

Professional Services

Contact center, IP telephony, IT solutions and security

Verizon Care helps you keep your equipment running smoothly.

Keeping your network in top operating shape takes constant upkeep, however tying up your network personnel with day-to-day equipment maintenance isn't the best use of time or money.

Verizon Care covers your network equipment, helping you to troubleshoot and isolate problems should you experience any network equipment issues. With Verizon Care's included Concierge Service, technical support is just a phone call away. If our team of engineers can't resolve the problem over the phone, we can dispatch a field technician per your service level option to assist. The same goes for replacement parts, which may be sent in as little as a few hours. Some of Verizon Care's included features:

- Troubleshooting of Verizon provided network service as part of initial network failure triage
- Auto renewal with no early termination liability
- Available performance monitoring and configuration management (With Verizon managed services)
- Available equipment fault monitoring
- Multiple coverage options to choose from

Get powerful solutions from a global provider.

Verizon Edge Solutions MRP is available to customers with our Network Services, Business Communications, Managed Services or Managed Security.
